Attention!

The immediate attention of public spirited men of Las Vegas and the railroad company is called to the condition of the railroad crossing and road at the lower Puertecito. It is in a terrible condition. The railroad is a high and steep embankment. On either side is a quagmire and a four horse team pulling a load over actually pull at cross purposes. The leaders pull down while the wheelers pull up. Thus every day heavily loaded wagons are stalled right on the track and have to be unloaded and the freight carried over. On this side of the railroad there is a deep gutter which is without a bridge and which is also almost impassable. A worse piece of road could not be made and is almost within the limits of the town. The attention of all interested in the freight business is directed to it.
